ARCHITECT/DESIGNER II

Snow Kreilich is currently seeking an Architect/Designer to join our staff. We have an ongoing need for an Architect with strong technical skills in documentation and detailing that has an interest in advancing the design from conception through construction completion. In our studio, this position is responsible for delivering design excellence across all performance measures, including High Performance Technical and Programmatic Design, Sustainability, Wellness, Equity, and Communication. The ideal candidate is a highly motivated individual who can work successfully in a collaborative environment and grow with our studio.

Qualifications

- 6 or more years of experience
- Actively Pursuing Architecture License
- Advanced Revit skills
- Strong verbal, written, graphic communication skills with the ability to describe and implement design principles

Responsibilities

- Design
 - Responsible for specific technical design aspects of an assigned major project
 - Investigation, evaluation, and recommendation of design solutions that best meet client, community, and studio goals
 - Planning, design, and coordination of large, complex projects
 - Independently applies advanced Architectural concepts and designs
 - Carries out complex or novel assignments requiring the development of new or improved techniques or procedures
 - Provide technical guidance to less experienced architects
 - Demonstrated knowledge of sustainable design strategies and various certification programs
- Construction Documentation
 - Execute standards for project delivery focused on project documentation, detailing and technical specifications
 - Coordinate the work of project team members
 - Manage the work of diverse consultant teams
 - Knowledge of state-of-the-industry building standards and finishes
 - Mastery of document package issuance and revision protocols
 - Demonstrated knowledge of QA/QC protocols
 - Experience in adherence to and gaining approvals of Accessibility compliance and other project entitlements
- Construction Administration
 - Extreme organizational skills to manage variable timing of incoming requests from constructors
 - Understanding of various delivery methods and contractual responsibilities
 - Submittal Review across all scopes of construction
 - Decisive responses to Requests for Information with clear written, diagrammatic, and annotative support
 - Issuance of Addenda, Bulletins, and Proposal Requests

- o Field Observation and Reporting
- o Maintaining logs of all project communications through spreadsheets and various Electronic Project Management platforms
